HONGKONG, SATURDAY, JUNE 17, 1882.

WE called attention, a short time since, give their valuable assistance to the Mr Th. von Pustau. to the urgent necessity which existed native merchants in accomplishing this gave a brief sketch of the fruitles; service. In addition to compulsory played is "Much Ado about Nothing." endeavours which had been made by the registration being a most necessary Hongkong General Chamber of Com- enactment, and one which will prove merce to attain that end. After waiting | useful in the usual course of business. for nearly ten months without receiving | there can be little doubt but that its | Co.) inform us that the S. S. Gleneurn left a reply, the Chamber of Commerce again speedy introduction at the present mo- Singapore for this port to-day, the 17th addressed the Government on the sub- ment would exercise a most beneficial ject; when, on 28th August 1878, the influence and do much towards bringing proposal was quietly disposed of on the back the confidence which has temporground that Sir Arthur Kennedy had arily been almost entirely lost. deemed such registration inexpedient and that Sir John Pope Hennessy was disposed to take the same view of the matter. Governor Hennessy, however, added that he would come to no decision in the matter "until he had some further opportunity of studying the details of Chinese trade in the Colony." As the Governor passively resisted all other attempts to enter upon the discussion of this subject, it is to be presumed that he did not find that the reform fitted into his pro-Chinese policy. Although it has long been a notorious fact that the lack of any system of partner-registration N.B .- This Packet carries no mails for the amongst the Chinese favours the evasion of responsibility, and although this fact has repeatedly been brought to light in the Bankruptcy Court, and even in the Legislative Council, no notice was taken of the arguments advanced by the Chamber of Commerce. On the 23rd of Sep-Chamber addressed the Colonial Secre- in coolies,

tary in these words :-The members composing foreign firms too much of the Chinese Mercantile Community in this Colony to conform to a rule which is voluntarily followed by other nations, but which they decline to observe. The Chinese will not give the necessary information on account of the responsibility which would be brought home to many members are.

most fair and ressonable statement of (giving the names); and as we have Master's figures relative to the United resources of the Cossion." The effort

reason to believe that compulsory regis- States as they stand, a ratio of nearly I to tration of the partners in all Chinese 2 for incomers and outgoers is bad enough hongs exists in Soigon and other Europenn-owned settlements in the East, there seems to be all the greater reason United States Census returns of 1880 give why this reform should be inaugurated the total number of "arrivals"-by which in this Colony. We concluded our previous remarks with this sentence:-"Now that 'legislation has been re- 271,975 in the 33 years 1848-80, the residual sumed in our local Parliament, we would commend this subject to the at- fact, could not be possible on any theory tention of our legislators, with the re- founded on the Harbour Master's figures, mark that there is probably a greater coupled with a supposition of an average necessity for its enforcement now than duration of stay of six or seven years. The ever before existed." This, of course, referred to the desperate condition into which a large number of the "leading Chinese" had fallen by reason of illadvised advice in high quarters; and We know that the actual arrivals in the the reality of the wretched state of things. Southern Tolonies during this period excould not have been better brought to ceeded those here stated, which confirms light than by the meeting in the City what we know, viz., that Hongkong was Hall on Saturday last. Whether or not not the only outlet for Chinese emigration the sad ordeal through which so many to Australia, and that Singapore once occuof our Chinese fellow-residents are now passing has opened their eyes to the opinion that nature is "averse to the Chievils caused by the absence of registra- ness as colonists in a climate and country tion, we cannot authoritatively say; but suited for Europeans." If the average rethere can be no question that the com-Service for Seamen, Sunday and Thursday, mercial crisis has suggested to the most respectable and blameless section of the Chinese mercantile community the form of registration as that suggested four or five years ago by the Chamber at 6.30 r.m. Holy Communion, 1st Sunday of Commerce. The steady-going Chinese merchants who have most inno-GERMAN BETHESDA CHAPEL -Service in cently suffered through the wild and the German language, by Rev. W. Louis, reckless conduct of unprincipled speculators now argue that the restoration of credit and confidence is the first and. most important step towards the return to a healthier condition of things commercial. They find that the European banks, and even private capitalists, are drin now so suspicious of the known, that they will not hear for a moment of trusting the unknown. The ramifications of this disastrous speculation in property are so widesprend that doubts are ready to arise whether any hong in the Colony is altogether free from its taint. Therefore, say even the Chinese themselves, it is only fair that the European community should be made acquainted with the names of all the partners in every Turkish Troops. . hong in the place; so that the credit and confidence so sadly shaken may be brought back, if any means can be employed to accomplish so desirable an When commenting upon the proceedings at the remarkable meeting held in the City Hall, at which the Government and the European banks were called upon by resolution to come to the rescue of those who had staked bigh and lost heavily, we scouted the idea of bringing back commercial credit and confidence by any violent means, Evensong:—Psalms, 102-103 (Unison); Magnificat, 127; Nunc Dimittis, 143; or reaching that desirable goal by any "Royal road." This desire, however, on the part of the more respectable

Chinese, to introduce a general system sensible movement; and we cannot clos) refinin from expressing a strong hope that the leading Chinese will adopt such measures as may induce the Government to promptly take the matter appoint Mr Robert Kennaway Leigh to be in hand and bring about the desired Acting Assistant Surveyor General. reform without delay. If the Eurohaving so badly advised the Chinese touching the City Hall meeting, would

notice, Mr O. F. von Möllendorf as Acting EDITORIAL NOTE. Consul for Germany at this Port, during Sir Walter Medhurst states, in a contribution to Nineteenth Century headed the 'Chinese as Colonists," September 1878, | Her Majesty's Principal Secretary of State that the principal points of embarkation for the Colonies has been pleased to grant for the Celestial overflow seaward are to Mr William McKinney, Acting 4th "Hainan, Canton, and Macao, Swatow, Master of the Government Central School, and Chaochow, Amoy, Chinchew, and, to a an extension of Six Months' leave on half limited extent, Wenchow and Ningpo. salary, commencing on the 4th July next. The Hainan people make their way principally to the Straits of Malacea and that Alrhough it was stated recently that the neighbourhood. . . . The province three most important prizes of the last of Canton and some of its conterminous Manila drawing went to Shanghai, the fact districts are drained through Canton and is that the principal one of \$50,000 was Macao, whence a vast number of mechanics secured by a Chinaman on board one of and petty tradesmen yearly go southwards, Siemssen's steamers running between here

to the Straits and Australia, and eastwards to California; and these ports have been which has given to Chinese emigration the low character which is now universally attached to it. Swatow Amoy, and Chinchew, although likewise are made known, and it cannot be requiring outlets of late for coolies, were points of escape for the adventurous Chinaman long before the country was opened up by treaties, or coolie emigration was rendered Papillon, R.E., commanding the Royal practicable by the complicity of the foreigner." We have adduced this quotation to explain certain inconsistencies in the figures on this head in the Harbour Mas. (9th) in the Co.'s handsome steam yacht who, under the present system, evade their ter's last report to those who happen to Leila, formerly the Banches, the transfer of liability for losses by not appearing as in-terested in concerns, in the profits of which consideration. It will account for such they participate, but for the losses connect- contradictory statements as that of the Singapore Times. ed with which when they occur they avoid emigration to the Philippines, in the ten responsibility by not being known as part years ending 1881, being only 11,557, while ners in the business. The Chamber desires those who returned to the Colony from the no interference with Chinese forms of part- same locality during the same period numnership, but it is much wished that the ber 37,958; likewise, 178,338 emigrating to names of partners in Hongs should be the Straits Settlements and 259,963 returnknown in the interest of the mercantile ing back! These apparent absurdities are public generally. A feeling of security effectually removed by our excerpt, which would be the result from such information show that Hongkong was not the only outlet being given, and the Chamber are of opinion to the Philippines, Straits, and Archipelago, an Ordinance should be passed making it during the Harbour Master's decade of time necessary for Hongs to declare who their while it has been nearly the sole inlet for the return Chinese from the same countries. No one will question that this is a Again, we know that the only outlet in Wong Kin, (1) Piracy, and (2) Receiving America for Chinese return emigration from stolen goods. Guiana, the West Indies, Cuba, and Peru the position; and it is most conclusive __the readiest and chespest way home_is evidence of the necessity which existed, San Francisco. Therefore the arrivals in that the Chinese themselves are now be- | Hongkong from California are not quite all ginning to find that the opinions above return emigrants from the latter country, ceny. expressed are sound and well-grounded. The same may be said of Oregon, which was What induced us to discuss this subject once the only outlet from British Columbia WE learn that celestial labour will be the to the effect that a certain Chinese Cubs and Peru-could not be otherwise partnership there consisted of so and so accounted for. But even taking the Harbour

as regards California, and it becomes worse in the case of Oregon which, less liable to perturbations, nearly attains 1 to 3. The we mean Chinese immigration into the United States on the Pacific side—as number of whom was, at the expiration of that period, 98,706. This result, based on aggregate of Chinese emigration from Hongkong to Australia and New Zealand, as set down by the Harbour Master, is 44,031, while those who returned number 22,724, during the ten years-1872-81. pied an important intermediate stage for the same. There can be no divergence of sidence of the Celestials abroad be only six or seven years, the consequence of ten years' stoppage of immigration, other things aside (and assuming that it can be stopped), may be easily surmised.

8. Chan Yau, -Attempt to commit lar-

hitherto made to enlist Kling or South Indian labour for the country have proved failure. The immense competition in both Sumatra and the Native States of the Malay Peninsula, as well as the demand the British Settlements, have been causes operating against the Company obtaining this agency-which the frightful mortality among the coolies of the same class in the newly-opened plantations in Jehore considerably enhanced. So China is the land of hope from which Sir Walter Medhurst expects much, and we believe that he will proceed to those Coast Ports, including Foochow, which are the best known and most feasible centres for coolie emigration, and it is his intention, we are informed, to establish direct steam communication between China and Tanddakan. The Association or Company could not have selected any one better qualified than our former Consul-General at Shanghai to organise the Chinese Labour Department for Emigration to Borneo. Our informant also gives us to understand that another demand will shortly arise in Sabah-compositors! It is, we understand, the intention to establish an official journal in the new Colony, something, we presume, after the style of the Sarawak Gazette. This will, we have no doubt, conduce more to the advancement of the Settlement than a dozen auch like works as Hatton's "New Coylon."

An inquest was held at the Government Civil Hospital this afternoon, before the Coroner, H. E. Wodehouse, Esq., and the following gentlemen as a jury: Messrs G. Holmes, H. Hyndman and J. C. Hughes, regarding the death of a Chinese male adult, whose body was taken to the Government Civil Hospital. The body was identiwho had been out of employment for some time, and who had been very sick for ten days previous to Saturday forenoon, when his nephew placed him in a jinricksha, and told the coolie to take him to the Tung Wa Hospital; the nephew following: While the machine was proceeding along Queen's Road Central, some one drew the coolie's attention to the fact that his fare was dead; the man stopped, and shortly afterwards a constable came up and the body was taken to the Hospital. The deceased was about 30 years of age, was unmarried, and had lived in an opium divan in Wanchai district some time previous to his death. Dr. Marques said he had made found that the abdominal artery had been ruptured; the result of ancurism. Marques was of opinion that death might have been accelerated by his removal. The jury returned a verdict of death from natural causes; and the Coroner informed the nephew of the deceased that instead of sending the deceased to the Hospital, he should have got a Doctor to visit him.-A second inquest was held respecting the death of a Chinese male child. The body this case was picked up on at Yau-mah Ti vesterday forenoon, and taken to the Police Station there, and then removed to the Hos-The body had not been identified, and Inspector Corcoran said that no report of anybody being missing had been made. The jury returned a verdict of found drowned.

REGARDING the death of Signor Vanzetti, the Comercio says :- All the morning papers to-day (10th) referred to the improvement in the health of the tenor of the on the 5th instant. His desire to get home Opera Company, Signor Vanzetti, ali pressing the hope that he would be able to sing to-morrow. It was apparently so, in fact: but in the fall of the evening the illness presented alarming symptoms, and at 11 p.m. the chief of the Company convened a meeting of a few medical men who declared that the patient was in a precarious state; he had been attacked by a pernicious fever of the most terrible kind. The physicians of an umbrella, value \$1.40, the property made every effort to save that robust of Kwan Aloi, on the 7th instant. constitution, but all was in vain; the ail- While on board the Canton steamer this Secretary of State for India in the Kirwee zetti, so say his companions, leaves no in custody before the steamer left. in His holy bosom. THE GOLDEN FLOWER. CHRYSANTHEMUM.

Ero Advent dawns with lessening days. While earth awaits the angel's hymn, When bare as branching coral sways In whistling winds each leafless limb, When Spring is but a spendthrift's dream. And Summer's wealth a wasted dower Nor dews nor sunshine may redeem, Then Autumn coins his Golden Flower.

Soft was the violet's vernal hue, Fresh was the rose's morning red, Full-robed the stately dahlia grew-All rone! Their short-lived beauty shed: The shadows lengthening stretch at noon, The fields are stripped, the groves are dumb; The frost flowers greet the icy moon-Still blooms the bright Chrysanthemun

The stiffening turf is white with snow: Undimmed its radiant discs are seen, Where soon the hallowed green will show The wreath and cross of Christmas green As if in Autumn's dying days. It heard the heavenly song afar-And opened all its living rays, The herald-lamp of Bothlehem's star.

Orphan of Summer, kindly sent; To cheer the waning year's decline, Of all that pitying heaven has lent No fairer pledge of hope than thine; Yes! June lies hid beneath the snow And Winter's unborn heir shall claim In every seed that sleeps below A spark that kindles into flame.

Thy smile the scowling storm-cloud brave Last of the bright-robed flowery train, Soft sighing o'er their garden-graves "Farewell! farewell! we meet again;" So may life's chill November bring' Hope's golden flower, the last of all Before we hear the angels sing Where blossoms never fade and fall. -Oliver Wendell Holmes.

THE NEW COMET. We give the following extracts regarding

the comet discovered at Boston on the 18th of March, by Mr Wells:-From the preliminary investigations of the orbit of the comet discovered at Boston. U. S., on the 18th of March by Mr Wells, made by Mr Hind, Dr Oppenheim, Profes. sors Pickering and Boss, and others, it ap pears that this body will, in the course of some six weeks, become a most conspicuous object. It will not pass the perihelion till tance from the sun will only be (as far as i known at present) some nine millions of miles, and as its brightness is rapidly increasing, it is expected that its brilliancy will be very considerable. Since 1600 and nine or ten comets have been observed which the perihelion-distance has been similar, or smaller. The exact date of perihelion passage cannot, as yet, be satisfactorily settled. It is given by Mr Hind as June 15, by Dr Oppenheim as June 16 by Dr Holetschek as Jone 8. According to a description given by Dr Opponheim, it is round and tolerably well-defined, almost as bright as one of the brighter telescopic stars, and has a tail of about 30' in length A later account, furnished by Mr Lohne, of Lord Crawford's observatory at Dun Echt mentions a curious circumstance. It ap pears that the tail is almost exactly preced ing-that is, that it is placed in a position almost exactly opposite to that generally occupied by the tail of a compt in relation to the head. When first found the comet was situated in Hercules. It is now in Lyra, it will pass thence into Draco. The position for April 12 is R.A. 18h. 44m. Dec. 49" 32' north. . It's distance from the Earth at present is about 120,000,000 miles. It is approaching our planet. It may be added that in a note in the last Dun Echt Circular, Mr Hind suggests that as the terested-that of experimental physiologytheoretical brightness on June 12 will be | and I may, therefore, be permitted to give about 2,165 times the brightness which it some amount of it in The Times. SCHEME FOR DISCOVERING THE NORTH POLE.

A Canadian engineer has some new ideas on the subject of discovering the North Pole, which he explains as follows :--

200 sled huts, on an improved plan, and substance prepared, after much trial, by have them delivered by steamer at the himself, with the view of affording nutrinorth-west angle of Hudson's Bay, latitude | ment to the parasite. Here he permitted 64 N., longitude 94 W., at a point known it to grow and multiply. From this new as Chesterfield Inlet, not later than August. generation he took a minute sample and in-This point is distant from the Pole 1565 feeted therewith fresh nutritive matter,

north end of Lake Winnipeg, where sup- in this way, without the intervention of plies could be delivered by boat, is but 600 disease. At the end of the process, which miles. This distance I would overcome sometimes embraced successive cultivations permanently by building a system of relay extending over half a year, the purified stations 20 miles apart, and connected by a Lacilli were introduced into the circulation through telegraph line to Winnipey city, at of healthy animals of various kinds. In a coast of 120,000 dollars. This work every case inoculation was followed by the would be carried on by Government, and reproduction and spread of the parasite and would eventually pay, connecting, as it the generation of the original disease. would. Churchill Harbour, mouth of Nelson | Permit me to give a further, though still River, and west coast of Hudson Bay, brief and sketchy account of Koch's experiwhere, in future, will be the great emporium ments. Of six guinea-pigs, all in good of the North, thus neutralising this expen- health, four were inoculated with bacilli diture by the great advantage of a tele- derived originally from a human lung, graph system for the purpose of emigration which, in 54 days, had produced five sucand trade. supplies for the undertaking, together with fected cases the guinea-pig sickened and sleighs, dogs, and men in charge, for lost flesh. After 32 days one of them died, nurposes of transportation from Lake Win- and after 35 days the remaining five were expedition, in daily communication with feeted ones, strongly pronounced tubercular the conter world. These sled buts would be disease had set in. Spleen, liver, and lungs constructed of paper board of the lightest were found filled with tubercles; while in design, and frost proof; each sled would be the two uninfected animals no trace of the about 6 feet wide and 10 feet long, neatly disease was observed. In a second experi-

little more than 250lb. per man. Thus equipped, we would commence the forward march by moving 10 sleds at a time. manuel in the following order: To each sled, one practical engineer, one doctor, and four able-bodied men-all thoroughbred Canadians; thus 10 sleds would comprise 60 men. These would advance in order at intervals, all keeping the due north course, and any deviation would be reported by a halt from the advanced sled. All the sleds would be advanced in this order until a complete chain of communication was established.

"I would commence this movement

about the 1st of December, or as soon as

the ice formed on the more southern rivers. Our route would lie by the west coast of the Gulf of Boothia to Barrow Strait, thence distance, except Barrow Strait and Jones's Sound, which would be frozen. At North Lincoln we would be distant from Chesterfield Inlet 786 miles, and from the Pole 780 miles. To North Lincoln we should push all the sleds, except 78, which we would leave by relays of 10 miles, all anchored with signals, so as to form complete chain of refuge in our rear, and, if found necessary, would establish a system of telephones from each sled by means of tripod poles. This would give us daily communication with Winnipeg, and govern our dog transportation trains, which would be in constant attendance throughout the whole line. When this was done, we would commence our advance along the third or polar division in the same order as before. only by shorter relays, as we would have 122 sled lints to station over 780 miles, or about six miles apart, so that each hut could be seen or reached with safety, might be necessary to have some of these stells constructed upon a boat principle, in case open water was reached, which could be used for towing others, as they would all be watertight and capable of being floated. But as I do not contemplate finding open water, this latter point would not offer any serious difficulty. The only obstacles likely to be encountered are rough and irregular ice ledges, which might have to be levelled or tunnelled in places. In this manner I would expect to overcome the whole distance from Chesterfield Inlet to the Pole by the 1st of July, 1884, that being the best season for observations at the Pole. The whole cost of the expedition in this way, not including the telegraph line to Winnipeg city, would be about-70,000 dollars, and is only a matter of dollars and cents."

TUBERCULAR DISEASE.

To the Editor of "The Times." Sir,—On the 24th of March, 1882, an address of very serious public import was delivered by Dr Koch before the Physiological Society of Berlin. It touches a question in which we are all at present insent to me by its author, is entitled "The fomery, &c., published at 6d., may be had Almanac Office, has computed the following first made himself known by the penetra- fumery in the World, or John Gosnell & system of elements for the new comet: | tion, skill, and thoroughness of his re- | Co., London, - [ADVI.] Perihelion passage, July 18th, Washington | searches on the contagium of splenic fever. mean time; longitude of perihelion, 18 deg., By a process of inoculation and infection he 14 min., I sec.; longitude of node, 209 deg., I traced this terrible parasite through all its 20 min., 28 sec.; inclination of orbit, 75 stages of development and through its varideg., 19 min., 40 sec.; perihelion distance, ous modes of action. This masterly in-0.59, the earth's distance from the sun being | vestigation caused the young physician to be transferred from a modest country prac- A kung Ngam. From the above elements it is learned tice, in the neighbourhood of Berslau, to Ap-li Chau. From this department has lately issued a Chung Wan.

inoculation, the tuberculous matter from diseased animals to healthy ones, he in every instance reproduced the discase. To meet the objection that it was not the parasite itself, but some virus in which it was imbedded in the diseased organ, that was the real contagium, he cultivated his bacilli artificially, for long periods of time and through many successive generations. With a speck of matter, for example, from a "I would have constructed immediately tuberculous human lung, he infected a thus producing another brood. Generation Now, from Chesterfield Inlet to the after generation of bacilli were developed

nineg to Chesterfield Inlet, which latter killed and examined. In the guinea-pig place would be the head-quarters of the that died, and in the three remaining in-

rounded at the top, and about 5 feet high, ment; six out of eight guinea-pigs were with a hole down through the centre for a incoulated with cultivated bacilli, derived signal pole or anchor, to avoid drifting originally from the tuberculous lung of a while resting in a gale. Each sled would monkey, bred and re-bred for 95 days, un- COLOMBO, ADEN, SUEZ, PORT SAID be steel shed, shaped somewhat like a til eight generations had been produced. toboggan, rounded up at either end. Each Every one of these animals was attacked, sled would contain a kerosene stove, oil while the two uninfected guinea-pigs retank, and lamps, as well as a complete mained perfectly healthy. Similar experisupply of preserved food, medicine, axes, ments were made with cats, rabbits, rats, and ice-shovels, sufficient for six men for mice, and other animals, and, without exsix months, together with for trappings ception, it was found that the injection of and other clothing. When complete, each the parasite intof the animal system was sled but would weigh about 1600lb., or a followed by decided and, in most cases, virulent tubercular disease. In the cases thus far mentioned inocula-

tion had been effected in the abdomen. The place of inoculation was afterwards changed to the aqueous humour of the eye. Thrue rabbits received each a speck of bucillus-culture, derived originally from a human lung affected with pneumonia. Eighty-nine days had been devoted to the culture of the organism. The infected rabbits rapidly lost flesh, and after 25 days were killed and examined. The lungs of every one of them were found charged with tubercles. Of three other rabbits, one recoived an injection of pure blood-serum in the aqueous humour of the eye, while the other two were infected, in a similar way, with the same serum, containing bacilli derived originally from a diseased lung, and to North Devon and North Lincoln by subjected to 91 days' cultivation. After 28 Jones's Sound, having land the whole days the rabbits were killed. The one which had received an injection of pure serum was found perfectly healthy, while the lungs of the two others were found oversproad with tubercles.

Other experiments are recorded in this

admirable essay, from which the weightiest

practical conclusions may be drawn. Koch determines the limits of temperature between which the tubercle-bacillus can develop and multiply. The minimum temperature he finds to be 86° Fahrenheit, and the maximum 104°. He concludes that, unlike the bacillus anthracis of splenic fever. which can flourish freely outside the animalbody, in the temperate zone animal warmth s necessary for the propagation of the new ly-discovered organisms La vast number of cases Koch has examined the matter, expectorated from the lungs of persons affected with phthisis and found in it swarms bacilli, while in matter expectorated from the lungs of persons not thus afflicted he has never found the organism. The expectorated matter in the former cases was highly infective nor did drying destroy its | virulence. Guinea-pigs infected with expectorated matter which had been kept dry for two, four, and eight weeks respectively were smitten with tubercular disease quite as virulent as that produced by fresh expectoration. Koch points to the grave danger of inhaling air in which particles of the dried sputa of consumptive patients mingles with dust of other kinds.

It would be mere impertinence on my part to draw the obvious moral from these experiments. In no other conceivable way than that pursued by Koch could the true character of the most destructive malady by which humanity is now assailed be determined. And, however noisy the famuticism of the moment may be, the common sense of Englishmen will not, in the long run, permit it to enact cruelty in the name of tenderness, or to debar us from the light and leading of such investigations as that which is here so imperfectly described.

JOHN TYNDALL. Hind Head, April 20.

Rates of

Interest

Hongkong Rates of Postage.

1878| 3.899|TL

1881 8.565[Tl. |

(Revised January 1st, 1882.) In the following Statements and Tables the Rates are given in cents, and are, for

Letters per half ownce, for Books and Patterns, per two ounces. Newspapers must not be folded together as

one, nor must anything whatever be inserted except bona fide Supplements. Printed matter may, however, be enclosed, if the whole be paid at Book Rate. Prices Current may be paid either as Newspapers or Commercial Papers signify such papers

as, though Written by Hand, do not bear the character of an actual or personal correapondence, such as invoices, deeds, copied music, &c. The charge on them is the same as for books, but, whatever the weight of a packet containing any partially written paper, it will not be charged less than 5

The sender of any Registered Article may accompany it with a Return Receipt on paying an extra fee of 5 cents.

The limit of weight for Books and Commercial Papers to Foreign Post Offices is 4 lbs. Patterns for such offices are limited to 8 ounces, and must not exceed these dimensions: 8 inches by 4 inches by 2

Countries of the Postal Union.

The Union may be taken to comprise Europe, all foreign possessions in Asia Japan, W. Africa, Egypt, Mauritius, all N. America, Mexico, Salvador, Brazil, Peru, Chili, Venezuela, The Argentine Republic, Jamaica, Trinidad. Honduras, Bermuda, Labuan, Hawaii, with all Danish, French, Netherlands, Portuguese and Spanish Colonies,

Countries nor in the Union .- The chief countries not in the Union are the Australasian Group, and S. Africa.

Postage to Union Countries.

General Rates, by any route :-10 cents per 1 oz. 3 cents each. Post Cards. Registration, 10 cents. 2 cents each. Books, Patterns and 2 cents per 2 oz. Comm. Papers.

There is no charge on redirected correspondence within the Postal Union. Postage to Non-Union Countries.

Australia, New Zealand, Tasmania, and Fiji, via Torres Straits, Letters, 10; Registration, 10; Newspapers, 2; Books and Patterns, 2: Via Galle, Letters, 25; Registration, 10; Newspapers, 2; Books and Patterns, 2.

Local Delivery.

1. All correspondence posted before p.m. on any week day for addresses Victoria will be delivered the same day, and generally within two hours, unless the delivery should be retarded by the Contract

delivered within Victoria at the private or Passage, apply to the Agency of the places of business, if a wish to that effect be expressed by the sender, otherwise all correspondence is invariably delivered at the nearest place of business.

3. Boxbolders who desire to send Circu-174 lars, Dividend Warrants, Invitations, Cards, Hongkong, December 6, 1879.

&c., all of the same weight to addresses in Hongkong, Bangkok, or the Ports of China, may deliver them to the Post Office unstamped, the postage being then charged to the sender's account. batch must consist of at least ten.

 $2\frac{1}{2}$ % prem.

June 17, 1882.

Last Di-Closing Quo

vidend. lations, Cash.

4. Boxholders may also send Patterns to the same places in the same way. Envelopes containing Patterns may be wholly closed, if the nature of the contents be first Newspapers over four ounces in weight exhibited or stated to the Postmaster are charged as double, treble, &c., as the General, as he may consider necessary, and case may be, but such papers or packets of approved by him. Printed Circulars may be inserted in such Pattern Packets.

> PARCELS.—The public is reminded that there is no such thing as Parcel Post Howles, Wm. 8 to Europe, &c. Much trouble and disap- linkster, James pointment are caused by persistent attempts J. H. to send small valuable trifles through the Post. Fans, Curios, Articles of Dress. Fancy Work, and similar presents are continually being refused, the senders having often spent more in Postage than would have paid the freight by atcamer. No refund can be made on such parcels of the value of Stamps obliterated before the nature of the contents was discovered.

Local and Indian Parcel Post. Small Parcels may be sent by Post

at Book Rates between Hongkong and any of the British Post Offices in China, as well as to Japan, Macao, Pakhoi, the Straits Settlements, Ceylon and India. They must not exceed the following dimensions, 2 feet long, 1 foot broad, 1 foot deep, weigh more than 5its., nor be smaller than 3 in. by 2 in. Such parcels may be wholly closed if they bear this special endorsement, PARCEL, CONTAINING NO LETTER, but any Albert Victor parcel may be opened by direction of the Alexa Postmaster General. In the Case of Parcels | Amoy for India a declaration of contents and | Anny A. Nichols value is required, a printed form for which is supplied gratis. The Registration of Parcels for India and Ceylon is compulsory.

2. The following cannot be transmitted: Parcels insufficiently packed or protected, Craigland, s.s. or liable to be crushed (as bandboxes, Creole &c.) Opium, Glass, Liquids, Explosive sub- | Ella stances, Matches, Indigo, Dyestuffs, Ice, Meat, Fish, Game, Fruit, Vegetables, or whatever is dangerous to the Mails, or Eulie likely to become offensive or injurious in

3. Parcels are as a general rule forwarded | Furrway by Private Ship, not by Contract Mail Geistel Packet. To India they are forwarded by Gettenalla the P. & O. and Indian Mail Packets only, to Ceylon by P. & O. only. No responsibility is accepted with regard to any parcel, unless Registered, and then only to the amount of \$10.

4. The public are cautioned not to confound these facilities with a Parcel Post to Europe, &c., which does not exist.

It is necessary that the following rules e strictly observed.

1. No Letter or Packet, whether to be Importer registered or unregistered, can be received for Postage if it contains gold or silver money, jewels, precious articles, or anything that, as a general rule, is liable to Customs duties.

2. This Regulation prohibits the sending of Patterns of dutiable articles, unless the quantity sent be so small as to make the sample of no value.

3. The limits of weight allowed are as follows :-

Books and Papers-to British Offices, 5 lbs.; to the Continent, &c., 4 lbs. Patterns-to British Offices, 5 lbs, if without intrinsic value; to the Continent &c., 8 oz.

Indemnity for the Loss of a Registered Article. The Post Office is not legally responsible for the safe delivery of Registered correspondence, but it is prepared to make good the contents of such correspondence lost while passing through the Post, to the extent of \$10, in certain cases, provided :---

1. That the sender duly observed all the conditions of Registration required. 2. That the letter was securely enclosed in a reasonably strong envelope.

3. That application was made to the Postmaster General of Hongkong immedi Goteborgs Posten. ately the loss was discovered, the envelope being invariably forwarded with such application unless it also is lost.

4. That the Postmaster General is satisfied that the loss occurred whilst the correspondence was in the custody of the British Postal administration in China, that it was not caused by any fault on the part of the sender, by destruction by fire, or shipwreck, nor by the dishonesty or negligence of any person not in the employment of the Hongkong Post Office.

5. No compensation can be paid for mere damage to fragile articles such as portraits, watches, handsomely bound books, &c. which reach their destination, although in a broken or deteriorated condition.

> NOW READY. PRICE, \$1.00.

BY E. H. PARKER.

Can be obtained from KRILY & WALSE Shanghai and Hongkong, at LAKE, CRAWFORD & Co., Hongkong, and at the China Mail Office.

HEALTH, STRENGTH AND ENERGY.

DR. LALOR'S PHOSPHODYNE.

Discovered and so named, A.D. 1862, by R. D. Lalor, M.D.

TO RESIDENTS IN INDIA, CHINA, AND THE COLONIES, IT WILL PROVE INVALUABLE AS A RELIABLE LIVER TONIC AND A VITALISING RESTORATIVE.

DR. LALOR'S PHOSPHODYNE

Is a Pure Solution of Phosphorus, pleasant in flavour and appearance, being a perfectly Bright Liquor, combined with Vegetable Alkaloids, possessing marvellous Curative Properties, the Wonder of Modern Chemistry, free from all Dangerously Active Drugs; innocent in its action, and pronounced by the Highest Medical Authority to be unequalled for its power in replenishing and elaborating the Vitality of the Body; Lozenges contain no opium nor any deleby its supplying all the essential Vitalising constituents of the Blood, Brain, and Nerve Substance; and for developing all the Powers and Functions of the System to the highest degree, thereby cheeking all Wasting of the Vital Fluid, and the more Exhausting Wear and Tear of Life resulting from Over-taxed Energies of Body or Mind, This old unfailing family remedy is daily remaintaining that Buoyant Energy of the Brain, Nervous, and Muscular Systems, which renders the Mind Cheerful, Happy, Brilliant, and Energetic.

DR. LALOR'S PHOSPHODYNE

Surpasses all the known therapeutic agents of the present age, as The Only Safe, Reliable and Permanent Cure For all Derangements of the Nervous and Blood

Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Nervous Debility in all its Stages, Softening of the Brain, Sleeplessness, Harassing Dreams, Paralysis, Pains in the Back, Affections of the Kidneys, Urinary Deposits, &c., Asthma, Scrofula, and Skin Diseases, Wasting or Withering of the Muscles, Impure and Impoverished Blood, Premature Decay of Vital Power and all morbid conditions of the system dependent upon the deficiency of the Vital Forces arising from whatever cause.

> THE ACTION OF DR. LALOR'S PHOSPHODYNE

Is Two-fold and Specific; on the one hand increasing the principle which ent Consumption, Asthma and Bronchial Constitutes Nervous Energy; and, on the other, the Most Powerful Blood and Flesh- Affections. I have prescribed them largely, generating Agent known; therefore a Marvellous Medicine for Renovating Impaired and Broken-down or Exhausted Constitutions, making the recipient as Active, Sprightly and Vigorous as if nature had never been retarded or debilitated.

AN ALARMING FACT

Disease, Dyspepsia or Disordered Liver, which Poison the Blood and sap the springs of stamp. life. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making Life actually a burden instead of enjoyment and usefulness, as it ought to be. There is not any good reason for this, seeing the united testimony of a great number of sufferers establish that DR. LALOR'S PHOSPHODYNE is superior to any Medicine yet discovered for the Cure of Dyspepsia and Liver Complaints in all their varied forms. The promptness and certainty of its action is such that when the fire of life seems to be dying out in the system, and the mind sympathising with the body, is reduced almost to a state of imbecility, this mighty PHOSPHORIC Restorative, by a few doses, seems as it were to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect.

TWENTY YEARS' PUBLIC TEST

Prove these facts unimpeachable, being fully borne out by thousands of testimonials from every nation and country in the world, freely offered by distinguished families. private persons, military, naval, scientific, and professional men who are well known. and who have experienced from its use all the benefits here indicated. DR. LALOR'S PHOSPHODYNE is sold in Bottles at 4s. 6d. and 11s., by all Export.

Wholesale and Rotail Medicine Vendors throughout the World. The large and continually Increasing Sale of Dr. Lalor's Phosphodyne, since its introduction in 1872, has led some unscrupulous persons to foist Bad Imitations on the Public Abroad. Read the following Notice:-

IMPORTANT NOTICE.—NONE IS GENUINE UNLESS the name Dr. Lalor's Phosphodyne, London, England, is blown in the Glass of each Bottle, and every Bottle bears the British Government Stamp, with the words Dr. Lalor's Phos-PHODYME, London, England, Engraved theroon by Order of Her Majesty's Honourable Commissioners; IF NOT, IT IS A FORGERY, and you have Purifier, &c. Sold by all Perfumers and been imposed on by a worthless Imitation.

BEWARE OF WORTHLESS IMITATIONS THAT MAY EMANATE FROM Cornhill, London; 9, Boulevard des Capu. AUSTRALIA.

Manufactured only at the Phosphodyne Laboratory by DR. R. D. LALOR. BAY HOUSE, 32, GAISFORD STREET, LONDON, N.W., ENGLAND, THE SOLE PROPRIETOR AND ORIGINATOR OF PHOSPHODYNE.

APPOINTED AGENTS IN INDIA AND CHINA :- TREACHER & Co.; Bombay, Byculla, and Poons; Smith, Stanistreet & Co., Bathgate & Co., Calcutta; R. ROBERTSON, Ceylon; O'HARA & Co., Bangalore; West & Co., Chemists, Madras; E. Speechly, Kurrachee; J. Gillon & Co., Lahore; Rangoon Dispensary, 215. Dalhousie Street, Rangoon; E. LYELL, Allahabad; CHARLES & Co., Cawnpore and Meerut; TH. KOFFER, MEDICAL HALL, QUEEN'S ROAD, Hongkong; LLEWEL. LYN & Co., Shanghai; and all Leading Merchants in India, China, Africa, &c.

In consequence of Imitations of THE WORCESTERSHIRE SAUCE which are calculated to deceive the Public, Lea and Perrins have to request that Purchasers see that the Label on every bottle bears their Signature

without which no bollle of the original WORCESTERSHIRE SAUCE

Ask for LEA and PERRINS' Sauce, and set Name on Wropber, Label, Bottle and Stopper. Wholesale and for Export by the Proprietors, Worcester; Crosse and Blackwell, London, &c., &c., and by Grocers and Dilmen throughout the World.

THE GREATEST-

HOLLOWAY'S PILLS

Long experience has proved these famous remedies to be most effectual in curing either the dangerous maladies or the slighter complaints which are more particularly in-cidental to the life of a miner, or to those living in the bush.

Occasional doses of these Pills will guard the system against those evils which so often beset the human race, viz:—coughs, colds, and all disorders of the liver and stomach—the frequent forerunners of fever, dysentery, diarrhoxa, and cholera.

Is the most effectual remedy for old sores, wounds, ulcers, rheumatism, and all skin diseases; in fact, when used according to the printed directions, it never fails to gure alike, deep and superficial ailments. These Medicines may be obtained from all respectable Druggists and Store-keepers throughout the civilised world, with directions for use in almost every language. They are prepared only by the Proprietor Thomas Holloway, 533, Oxford Street, London. Beware of counterfeits that may emanate from the

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c. DR. J. COLLIS BROWNE'S

CHLORODYNE

(Ex Army Med. Staff)
IS THE ORIGINAL AND ONLY GENUINE. CAUTION - Vice-Chancellor Sir W. P Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the them. discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne s.—See Times, July 12, 1864. The public, therefore, are cautioned

> DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION. This invaluable remedy produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases-Diphtheria, Fever, Croup, Ague. CHLORODYNE acts like a charm in Diarrheat, and is the only specific in Cholera

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancel

and Dysentery.

Toothache, Meningitis, &c. From Symes & Co., Pharmacoutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London .--"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of genera utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysontery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sodative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea. and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike. We are, sir, faithfullyyours, Symes & Co., Members of the Pharm, Society of Great Britain, His Excellency Extract from the General Board of Health, London as to its efficacy in Cholera:

the Viceroy's Chemists.' —"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer-

J. T. DAVENPORT, 33, Great Russell-street, Bloomsbury, Sold in bottles at 1s. 11d., 2s. 9d., 4s. 6d.

NEWS FOR HOME. The Overland China Mail. (The oldest Overland Poper in China.)

PUBLISHED AT THE "CHINA MAIL" OFFICE

IN TIME FOR THE ENGLISH MAIL Containing from 72 to 84 columns of closelyprinted matter.

THIS Mail Summary is compiled from

the Daily China Mail, is published COMPLETE REPRINT, in Pamphlet twice a month on the morning of the English Mail's departure, and is a record of each fortnight's current history of events in China and Japan, contributed in original reports and collated from the journals published at the various ports in those Countries. It contains Shipping news from Shanghai. Hongkong, Canton, &c., and a complete

Commercial Summary. Subscription, 50 cents per Copy (postage paid 52 cents.) \$12 per annum (postage paid \$12.50.)
Orders should be sent to GEO. MURRAY BAIN, China Mail Office, 2, Wyndham Street, not later than noon of the day the English Mail Steamer leaves. Terms of Advertising, same as in Daily

China Mail.

Intimations.

THE CHINESE MAIL.

THIS paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever chief support of the paper is of course derived from the native community, Government Offices, the Secretariat, &c., amongst whom also are to be found the guarantors and securities necessary, to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, -consider themselves justified in guaranteeing a large and over-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand while on the other it deserves every aid that can be given to it by foreigners, Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for the above may be

THE CHINA REVIEW. PUBLISHED BI-MONTHLY.

the wants of many students of Chinese caused by the discontinuance of "Notes and Queries on China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of the "Far East" and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally useful.

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China Mail Office."

Mail Office."

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points.

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various topics.

Original contributions in Chinese, Latin, or any of the Modern Languages are re-

or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, Hirth, and Hance, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, and Piton,—all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per

annum, postage neluded—payable in advance.

Orders for binding volumes will be promptly attended to Address, "Manager, China Mail Office."

Orinions of the Press.

"All our learned societies should subscribe to this scholarly and enterprising Review."—Northern Christian Advocate (U.S.)

"The China Review * * * * has an excellent table of contents."—Celestial Empire.

"The Publicationalways contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."—Celestial Empire.

"This number contains several articles of interest and value."—North-China Herald.

"The present number of this periodical,

* * * * opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation it enjoys at present among the commercial communities of China, we hall the innovation as likely to recommend the Review to the notice of those who take an interest in few matters beyond mercantile pursuits."—North-China Herald.

"The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at "Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Fornosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is, second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries

are as usual very interesting."-North-China

Daily News.

"A substantial and reliable Review which all students of China and the Chinese would do well to patronise."—Chrysauthemum.

"The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese shirters.

given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number."—H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review.—

The present publication, judging by the Kumber now before us is intended to

number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors.

Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh can may, Su Tungapio, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance.

Merchant Vessels in Hongkong Harbour.

Exclusive of late Arrivals and Departures reported to-day.

To facilitate finding the position of any vessel in the Harbour, the Anchorage is divided into eight Sections, commencing at Green Island. Vessels near the Hongkong shore are marked h., near the Kowloong shore k., and those in the body of the Shipping or midway between each shore are marked c., in conjunction with the figures denoting the sections.

From Green Island to the Gas Works.
 From Gas Works to the Novelty Iron Works.
 From Novelty Iron Works to the Harbour Master's Office.
 From Harbour Master's to the P. and O. Co.'s Office.

Section.
From P. and O. Co.'s Office to Peddar's Wharf.
From Peddar's Wharf to the Naval Yard.
From Naval Yard to the Pier.
From Pier to East Point.
